

# PNSC-2

## Pneumatic Push-type Combination Tool for Steel Strapping

Easy to operate and service  
Two button operation and improved balance make the PNSC-2 the most preferred tool in its class. Dramatic design improvements also make it the easiest tool to service.

Weighs only 9.5 lbs.

Adjustable tension  
Tension is easily adjusted to suit any application.

Reliable and durable  
All metal and alloy parts.

### Specifications:

For use on 1/2" x .017" Apex Plus™ to 3/4" x .025" Magnus® strapping.

Tension: Up to 700 lbs.

Weight: 9.5 lbs.

The PNSC-2 pneumatic combination tool is designed for use on steel strapping in sizes ranging from 1/2" x .017" Apex Plus™ to 3/4" x .025" Magnus®. It's ideal for strapping slit coils, bundled tubes and irregular-shaped loads.

Compared to other tools in its category, the PNSC-2 is significantly more reliable and durable. Its unique design makes it easy to operate and service.
